Projects

Shuffle, Boston, MA	**June 2023 - September 2023**

Flashcard iOS Application
- Flashcard app that utilizes AI to create flashcard sets 50% faster than doing so manually
- Prototyped a fully responsive layout for the front end of the app using Figma
- Developed all visual design, including the logo and app aesthetic using the Adobe Suite

MOHAI Native Stories, Seattle, WA	**May 2023 - June 2023**

Exhibit Guide Website Prototype
- Created a website prototype for the Seattle Museum of History and Industry using Axure RP
- Prototype housed texts, audio, and videos pertaining to the Indigenous Peoples Exhibit at the museum, visited by more than 150,000 guests every year

Experience

Northeastern Electric Racing, Boston, MA	**June 2023 - Present**

Product Lead
- Led design team for in-house project management web app with 212 users and 82 projects
- Prototyped layouts for various new pages and features that were implemented in the website
- Increased engineer efficiency by 20% through overhauling the information design of the website
- Wrote a branding style guide that designers use to keep the look of the website consistent

Northeastern Electric Racing, Boston, MA	**January 2023 - June 2023**

Software Developer
- Developed an in-house project management web app written in Typescript and React in a team setting
- Implemented several user interface changes using Material UI, including a full redesign of a page
- Coded a back end endpoint and multiple tests for a new section of the website

Interests: Graphic design, discovering new music, movies, cooking, watching baseball
